

Conflict Minerals Declaration

As a global supplier of Motion Control Products that contain PCBAs and metal, ACS Motion Control is aware of its obligations with regards to laws and regulations regarding Conflict Minerals, specifically the Dodd-Frank Wall Street Reform and Consumer Protection Act, Section 1502.

ACS Motion Control does not directly source or process conflict minerals such as tin, tantalum, tungsten, or gold.

These minerals (tin, tantalum, tungsten, and gold) are contained in our products in the form of solder or as a component in metal alloys. As part of our due diligence ACS Motion Control has contacted our component suppliers to verify their continued compliance with the regulations.

Based on the information received we can reasonably declare that our products are "DRC Conflict Free".
